--Spray bottle(s). At least 3-4 water containers. Hair dryer (optional)

--Scraper(s), e.g. old credit card CUT UP in triangles, or palette knife.

--Blotters, e.g. sponges, clean towels, tissue, paper towels

My fave palette now is the John Pike plastic palette with BIG wells, for 18 colors, good for big brushes and has inside cover mixing area.

--Photos to paint from. If possible print in black and white as well as color.

--Opt: a "dead" painting you'd like to fix but don't know how. You'll learn some magic!

To SAVE MONEY: order online, especially for paper and pigment which really should be professional grade even if you're a beginner. It makes a huge difference! Order online from Cheap Joes, Daniel Smith, Dick Blick or Jerry's Artarama.

A 22"x30" sheet can be cut into quarters. One sheet about \$7. Well worth it!
